Richard Darling's NEW BMX
SIMULATOR is a brilliant follow
up to his original BMX RACERS.
Eye in the sky viewing – amazing
realistic simulation, the starting
ramp, burms, bumps, water
splashes etc. all have realistic
effect on the rider.

Two player option is included.
Seven different, progressively
harder, courses will test even the
best games player.

Richard has achieved yet another
breakthrough with the first
ACTION REPLAY option,
whenever there is a close finish
you can see it again on the
REPLAY – and if that's not
enough, press the S key and
watch it in SLOW MOTION!

ACTION REPLAY

Press A at the end of each course for the ACTION REPLAY. Then hold down S for the special Slow-Motion feature (SLO-MO).

HINTS

Demonstration Mode runs automatically.

Press **N** to change the number of courses in the Championships. You must complete each course within the time limit in order to qualify for the next one.

Press **S** to start the race.

You are then told, **Riders Ready — Pedals Ready — Go!**

Press Accelerate the instant you are told to go — timing is vital, don't lose precious tenths of a second.

Race as though you are in a real BMX Championship. The bumps help you turn, the rough ground slows you down. All the hills and different grade surfaces effect the rider as in real life.

Number of laps raced and time elapsed are shown at the bottom of the screen for both riders.

The 'time limit' is shown in the centre of the screen on the bottom line.

Only two players qualify for Championship Awards.
